Storm Stoppers Customer Disclosures:

- 1. Storm Stoppers have been Large Missile 2 x 4' Tested to ASTM E1886 & ASTM E1996-06 standards in winds <130 mph.

 2. Storm Stoppers have been "Wall of Wind" Tested to sustained winds and rain of 143 mph at the "Wall of Wind" Hurricane Simulator in Miami, FL.

 3. I will be receiving the ASTM Large Missile 2 x 4' Test Report, the Wall of Wind Test Report & the letter from a Structural Engineer explaining Wind Test report.

 4. I understand that purchasing Storm Stoppers does not guarantee a homeowner's insurance discount.

 5. I have received the 2 Year Storm Stoppers Warranty. I know that leaving Storm Stoppers up longer than 1 month will shorten the useful life.

 6. Storm Stoppers quoting program provides enough fasteners for top, bottom and sides, but only 6% extra for vertical or horizontal crossbars.

 7. All sales are final. Customer can contact Storm Stoppers at 407-423-5959--office for any questions on DIY Installation.
